We have a firstclass Shoemaker constantly in our employ who will always sew and nail all Shoes gratis bought at our store.

Come and inspect our line before buying, if you buy the quantity we give you the discount.

THE BEE HIVE

SIDEWALK RESOLUTION.

Whereas the resident lot owner, butting on certain streets herein after more fully described, have petitioned for sidewalks and the prayer of their petition has been allowed:

Therefore be it resolved: By the mayor and council of the city of McCook, that sidewalks be built and are hereby ordered constructed within thirty days after the publication of this resolution at the established grade, to be furnished by the city engineer upon application, to-wit: On east side of Main avenue lots 11 and 12, block 4, First Addition; lots 7, 8, 9, 10, 11, 12, block 13, and lots 7, 8, 9, block 6, Second Addition. Also on south side of Dudley street lots 1-12, block 9, First Addition; and lots 1, 2, 3, 4, 5, 6, block 12, lots 1, 2, 3, 4, 5, 6, block 13, lot 1, block 24, Original town, all in the city of McCook.

Original: Lots 1, 4, 12, block 23.
First addition: Lot 1, block 22. Lots 6, 7, block 23.

Second addition: Lots 6, 7, block 28. Lots 6, 7, block 25. Lots 1, 2, 3, 4, 5, 6, block 27.

The material to be used in the construction thereof, shall be either flag stone, vitrified brick or concrete. For flag stone 3 inch thick laid on solid foundation well tamped and surfaced.

Vitrified brick must be of even size laid in 2 inches of dry sand, upon a well tamped and solid foundation. Lay brick diagonally across side of level on concrete, 1 inch lower on the out side of walk.

Concrete to be made 1 part Portland cement to 2 of sand and 4 of crushed stone laid upon a solid well tamped foundation, tamped well and surfaced with 2 of cement and 2 of sand.

All walks to be of a uniform width of 5 feet all brick walks to be curbed on each side by brick set on end.

Said walks to be built under the supervision of the committee on streets and alleys and the city engineer in accordance with the provisions of Ordinance No. 113 as amended.

Passed and approved this 11th day of June, 1906.
H. P. WAITE, Mayor.
W. A. MIDDLETON, City Clerk. 8-10-28

SIDEWALK RESOLUTIONS.

Whereas the committee on streets and alleys have condemned the sidewalks along certain streets and lots abutting herein after more fully described, as unsafe for public travel, and advised the building of a sidewalk on a certain street where there reside no sidewalk petitioners.

Therefore be it resolved: By the mayor and council of the city of McCook, that the sidewalks are ordered rebuilt and constructed within thirty days from the publication of this resolution to be built, at the established grades established, by the city engineer on application, to-wit: West side of McDowell street lots 7, 8, 9, 10, 11, 12, block 19; south side Dennison street lots 1, 2, block 25; south side Dennison street part lot 12, block 25; north side Dennison street lot 7, block 19; west side Monroe street lots 4, 5, 6, block 24; west side Madison street lots 3, 5, 6, block 23; west side Main avenue lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, block 4; lots 1, 2, block 14; east side Madison street lots 7, 8, 9, 10, 11, 12, block 25; west Marshall street lots 2, 3, 4, 5, 6, block 15, lots 1, 2, 3, 4, 5, block 22; lot 1, block 10; north side Douglas street lot 7, block 12; north side Dearborn street lot 7, block 1; west side Manchester street lots 2, 3, 5, block 5; west side McDowell street lots 8, 10, block 18; west side Manchester street lots 3, 4, 5, 8, 9, 10, block 5. All in the Original town of McCook.

Also, west side McFarland street lots 1, 2, 3, 4, 5, 6, block 7; lots 21, 2, block 8; lot 1, block 21; west side Manchester lots 2, 3, block 9; lots 2, 3, 4, 5, block 5; lots 1, 2, block 19; west side Madison street lots 1, 2, 3, block 12; lots 1, 2, 3, 6, block 3; west side Monroe street lots 1, 2, 3, 4, 5, 6, block 2; lots 1, 2, 3, 4, 5, 6, block 13; lot 1, block 16; east side Marshall street lots 7, 8, 9, 10, 11, 12, block 12; lots 8, 9, 10, 11, 12, block 3. All in the First Addition.

Also, west side McFarland street lot 6, block 10; lots 1, 2, 3, 4, 5, 6, block 11; west side Madison street lots 1, 2, 3, 4, 5, 6, block 14; north side Monmouth street lot 4, block 25.

Also, Main avenue lots 3, 4, 5, 6, block 10, lots 1, 2, block 19. First Addition.

The committee on streets and alleys report that there is a public need of a sidewalk along the south side of lot 6, in block 3, Original town of McCook, and there is no resident petitioner along said route, it is ordered that a walk be built to fill up the gap in the walk—three-fourths of the council having voted to that effect.

The material to be used to be flag stone, vitrified brick or cement. Flag stone to be 3 inch thick laid on a solid foundation well tamped and surfaced. Vitrified brick must be of even size laid in 2 inches of dry sand, upon a well tamped and solid foundation, laid diagonally to a level surface, 1 inch lower on out side of walk, curbed on both sides by setting brick along andwise, all well tamped after laying.

Concrete to be made 1 of Portland cement to 2

of sand and 4 of crushed stone well mixed and laid on a smooth well tamped surface, tamped well and surfaced with 1 of cement and 2 of sand.

All sidewalks to be of a uniform width of 5 feet, except walks on Main avenue block 4 all to be 8 feet in width.
W. A. MIDDLETON, City Clerk
August 3rd, 1906.—28.

ANIMALS IN CUBA.

Game In Plenty and One Species of Semi-domesticated Snake.

Throughout Cuba game is abundant. Deer, though not native, have flourished and multiplied greatly. Rabbits are plentiful; also the wild boar, so called, the wild dog and the wild cat of the island. Wild fowl, especially ducks and pigeon, abound, the former crossing from the southern states during the winter season, while the latter remain on the island the year round. Pheasants, quail, snipe, wild turkeys and wild guinea fowl are also numerous, with several varieties of game birds, such as the perdiz, tojosas, rabiches and the guanaros.

The only distinctive native animal is the jutia or hutia, ratlike in appearance and black. It grows to a length of sixteen or eighteen inches, not including the tail. While edible, it is not especially palatable.

Cuba has more than 200 species of native birds, including those already mentioned as game birds, many possessing the most beautiful plumage, but those with song are rare.

In swampy localities crocodiles and American alligators (caimans) are found, and, although these frequently grow to an enormous size, but little attention is paid to them by the natives.

Chameleons, small lizards, tree toads and similar harmless siflurians of diminutive size are very common, while occasionally the iguana and other large varieties of the lizard species are seen.

Few varieties of snakes exist in Cuba. One of these, the maja, from ten to fourteen feet in length, is a semi-domesticated reptile, if such a term may be used, for it is most frequently found about the huts, farm-houses and small villages, its favorite living place being in the palm thatches of the old buildings, while its favorite food is poultry. Another snake, named the jubo, is more vicious in disposition than the maja, although never reaching more than one-third its size. It is not poisonous. The other varieties are still smaller in size, are seldom seen and not venomous.—Havana Post.

He Went.

"Like most men," he said, "I have my shortcomings, I suppose, but"—

"Oh, it isn't your shortcomings father objects to!" Interrupted the girl. "It's your long stayings."

THE FLAG REVERSED.

A Fisherman's Emblem That Tells of Distress and Hope.

One of the frequent sights in the ports along the eastern coast is that of a fishing schooner coming into the harbor with an American flag hoisted at the mainmast head in its reverse position. To the interested spectators that flag always brings a pang of distress, for it means that one or more of the crew are "missing" through some calamity of the sea. But to the members of the craft itself the signal is not always an emblem of woe. The flag is hoisted, from their viewpoint, to notify those concerned that the complement of the ship is not full, and they live on hope for a long time before they acknowledge that we're missing them! It's more than likely they'll turn up yet.—New York Press.

A stranger to seafaring ways asked the skipper of one of these fishing schooners the other day what the distress signal meant, and he was set right by the captain, who remarked in the most cheerful way in the world:

"They're missing out of th' crew, of course, but we haven't given them up by a long sight. Ye see, they may have been picked up by some other boat an' carried off to th' other side. Oh, no, we don't give them up just because we've missed them! It's more than likely they'll turn up yet."—New York Press.

Elephant Power.

How many men would be needed to pull a weight hauled by an elephant? Fifty. The answer is the result of recent investigations made to determine the respective pulling power of horses, men and elephants. Two horses, weighing 1,600 pounds each, together pulled 3,750 pounds, or 550 pounds more than their combined weight. One elephant, weighing 12,000 pounds, pulled 8,750 pounds, or 3,250 pounds less than his weight. Fifty men, aggregating about 7,500 pounds in weight, pulled 8,750 pounds, or just as much as the single elephant. But, like the horses, they pulled more than their own weight. One hundred men pulled 12,000 pounds.

Proverbs of Assam.

Here are some rather clever proverbs of Assam: "The best crops grow on others' fields, but the best sons are at home." "A bird is a little thing, but it builds its nest on a lofty hulung tree." "Buy land which slopes to the middle, and marry a girl who has a good mother." "The biggest jack fruit always hides under the leaves." "If a man slips down it is always his eldest wife's fault, but if his youngest wife makes a mistake he says he will see about it." "A husband cook, a hasty broom, and the husband goes fasting; a slow cook, a slow broom, and the husband eats three meals a day."
